

2007

Spencer Haynes serves as President. NABOR® changes its name to Naples Area Board of REALTORS®. The real estate market begins to steadily drop after the massive and unrealistic gains of 2004-2005. The onslaught of loose lending practices combined with easily obtained contracts on new construction proves to be the breeding ground for negative publicity regarding the Naples real estate market. A Media Relations Committee is formed to communicate accurate market statistics and trends to the media and the public. NABOR becomes the source of reliable market data and the voice of real estate for the Naples Area. MLS is a focus of attention by the Board. Sunshine MLS is in the midst of growing and developing. NABOR forges the path to having a better way to share data that is consistent and reliable, expanding the ability of all of its members to provide professional service in areas never thought possible. NABOR® changes its name from Naples Area Board of REALTORS and Association of Real Estate Professionals® to Naples Area Board of REALTORS®. Urban planner, Andres Suany, is hired by the city to redevelop Fifth Avenue.
